

PROGRAMS

Social Sciences General Education Courses in School of Business Programs (pgs. 4-13)

In the Accounting AAS Degree (pg. 4), the Healthcare Management BS Degree (pg. 9), the Human Resources and Organization Leadership AAS Degree (pg. 11), and the Marketing AAS Degree (pg. 13), delete the Lower Division Social Sciences section in its entirety and replace with the following:

Social Sciences (Select 2 of the following courses)**	8
G123 Principles of Economics	
G142 Introduction to Sociology	
G203 Macroeconomics	
G204 Microeconomics	

**It is recommended students complete their Social Sciences requirements by combining either Principles of Economics and Introduction to Sociology, or Macroeconomics and Microeconomics.

(Note that the Business Management program curriculum is changed, and a new program page is included in this addendum.)

Business Management AAS and BS Degree (pg.8-9)

Delete these program pages in their entirety and replace with the Business Management AAS and BS Degree program page found on page 4 of this addendum.

Multimedia Technologies: Digital Design and Animation Diploma (pg. 14)

Delete the Career Opportunities in their entirety and replace with the following:

- Graphic Designer
- Print and Digital Designer
- 3D Artist

Add Health Sciences Certificates and AS degree.

See page 5 of this addendum for program details.

Medical Assisting Diploma and AAS Degree (pg. 21)

In the Medical Assisting Diploma program, delete the MAERB and ABHES accreditation statements in their entirety and replace them with the following:

The Medical Assisting Diploma program at the Green Bay, Lake Elmo/Woodbury, and Moorhead campuses is accredited by the Commission on Accreditation of Allied Health Education Programs (caahep.org) upon the recommendation of the Medical Assisting Education Review Board (MAERB).

The Medical Assisting Diploma and AAS Degree programs at the Aurora/Naperville, Mokena/Tinley Park, Rockford, and Romeoville/Joliet campuses in Illinois; the Fort

Myers, Ocala and New Port Richey/West Pasco campuses in Florida; the Appleton and Wausau campuses in Wisconsin; and the Blaine, Bloomington, Brooklyn Park/Maple Grove, Eagan, Mankato, and St. Cloud campuses in Minnesota are accredited by the Accrediting Bureau of Health Education Schools (ABHES).

In the Medical Assisting Associate's Degree program, delete the MAERB accreditation statement in its entirety. Also delete the ABHES accreditation statement and replace it with the following:

The Medical Assisting Diploma and AAS Degree programs at the Aurora/Naperville, Mokena/Tinley Park, Rockford, and Romeoville/Joliet campuses in Illinois; the Fort Myers, Ocala and New Port Richey/West Pasco campuses in Florida; the Appleton and Wausau campuses in Wisconsin; and the Blaine, Bloomington, Brooklyn Park/Maple Grove, Eagan, Mankato, and St. Cloud campuses in Minnesota are accredited by the Accrediting Bureau of Health Education Schools (ABHES).

Surgical Technologist AAS Degree (pg. 24)

ST106 Fundamentals of Surgical Technology – Change course number to ST100.

ST112 Surgical Procedures I – Change course number to ST110.

ST203 Surgical Procedures II – Change course number to ST209.

ST207 Surgical Procedures III – Change course number to ST214.

Criminal Justice AAS and BS Degree (pg. 25-26)

Delete these program pages in their entirety and replace with the Criminal Justice AAS and BS Degree program page found on page 6 of this addendum.

Law Enforcement AAS Degree, Law Enforcement Academic Certificate, Law Enforcement Skills Certificate (pgs. 28-29)

In all three programs, course number for Minnesota Criminal Code is LE245, and course number for Minnesota Traffic Code is LE240.

Professional Nursing AAS Degree and Professional Nursing AS Degree with Mobility Entrance Option (pg. 31)

Delete this page in its entirety and replace with the Professional Nursing AS Degree (including Mobility Bridge Entrance Option information) on page 7 of this addendum.

Practical Nursing AAS Degree (pg. 32)

Delete this page in its entirety and replace with the Practical Nursing Diploma on page 8 of this addendum.

Information Systems Management: Database Administration Diploma and AAS Degree (pg. 41)

New students may not currently enroll in either the Information Systems Management: Database Administration Diploma or AAS Degree program.

General Education Course Selections (pg. 43)

In the Lower Division Social Sciences category, add the following course:

G123 Principles of Economics	4
------------------------------	---

General Education Course Selections (pg. 43)

Delete the Nursing Programs general education course selections, and replace with the following:

NURSING PROGRAMS**English Composition**

Arkansas General Education Course Requirements (pg. 44) Delete this page in its entirety.**Add RN to BSN Program/Nursing BS Degree (online only)**

See page 3 of this addendum for program details.

RN to BSN Program/Nursing BS Degree Online Only

Career Opportunities:

- Clinical Practice
- Administration
- Nursing Education
- Nursing Leadership

Objective:

The principal aim of this nursing education program is to strengthen nurses in the generalist role in alignment with the Essentials of Baccalaureate Education for Professional Nursing Practice. Graduates of this program will know the theoretical foundation of nursing according to the Quality and Safety Education for Nurses (QSEN) competencies which are designed to allow them to continuously improve the quality and safety of the healthcare systems within which they work. Graduates will be immersed in the six outcome abilities central to the QSEN competencies, and they are, patient centered care, teamwork and collaboration, evidence-based practice, quality improvement, safety and informatics. Upon completion of the nursing program, they will be able to improve patient outcomes and promote nursing as a profession. Graduates value caring, diversity, excellence, holism, effective communication, integrity, life-long learning and evidence-based practice that underlie the QSEN outcome abilities.

Enrollment Requirements:

Applicants to this program must possess a current, unencumbered RN license that is valid in the United States. Completion of all college prep course work, including a minimum of 32 credit hours of transferable general education course work, is required for admission to the program. Admitted students will be granted a transfer block inclusive of the lower division general education and the lower division major and core courses.

In addition to the courses listed, at designated points in their programs of study, students are required to complete with a passing grade a seminar course. Students must complete the Senior Seminar during the quarter in which they finish the Bachelor's degree requirements to graduate from a Bachelor's degree program.

** Credit totals do not include Foundation Courses. Students must either demonstrate mastery of the subject matter in Foundation Courses through a Rasmussen College entrance placement exam or by successful completion of Foundation Courses.*

This program is not available online to residents of some states. Please speak with your Program Manager to determine your eligibility for enrollment.

SCHOOL OF BUSINESS

BUSINESS MANAGEMENT AAS DEGREE • BS DEGREE

ASSOCIATE'S DEGREE

Career Opportunities:

- *Customer Service Representative*
- *Administrative Assistant*
- *Call Center Representative*
- *Sales Representative*

OBJECTIVE:

Graduates of this degree program know major concepts in accounting, business, business ethics, business law, and finance. They can demonstrate management skills including planning and decision making, organizing, controlling, and leading employees. They can interpret basic financial data and perform basic accounting skills. They can use computer applications for the business environment. Graduates value written and interpersonal communication, critical thinking and problem solving, information and financial literacy, and diversity awareness skills and their significance in academic and workplace situations.

BACHELOR'S DEGREE

Career Opportunities:

- *Executive Administrative Assistant*
- *Account Manager*
- *Sales Manager*
- *General and Operations Manager*
- *Assistant Manager*

OBJECTIVE:

Graduates of this program know concepts in management, organizational leadership, and business ethics. They understand finance and accounting, and advanced management theories and techniques that can be incorporated in a variety of fields. They can apply, analyze, synthesize, and evaluate facts and theories; locate, evaluate, and integrate appropriate primary and secondary sources; infuse their ideas with the ideas of others to create new knowledge; recognize and address complex ethical situations; communicate effectively in a variety of scenarios; and operate efficiently within a continually changing environment. Graduates value communication, critical thinking and problem solving, scientific and information literacy, financial literacy, diversity awareness, and knowledge creation skills and the need to incorporate them in meaningful ways.

Criminal Justice Professional Peace Officer Education (PPOE). This program meets peace officer training standards established by the Minnesota Peace Officer Standards and Training (MN POST) Board for persons who seek employment in Minnesota as a peace officer. Training standards vary by state, and students seeking peace officer employment in a state other than Minnesota should consult that state's regulations. In order to sit for the Minnesota Peace Officer Standards and Training (MN POST) Board licensing exam, students are also required to successfully complete an officially recognized first-aid course in First Responder, Emergency Medical Technician, or Emergency Response, and to complete practical/"skills" coursework meeting POST objectives. Students must provide the Rasmussen College Law Enforcement POST Coordinator with a copy of their required first-aid certification (e.g., a photocopy of their first responder card) for inclusion in each student's POST file maintained at Rasmussen College. Some skills training providers may require additional academic coursework. Skills training cannot be completed online.

BACHELOR'S DEGREE

Career Opportunities:**

- Detective Investigator
- Probation/Parole Officer
- Crime Victims Advocate
- Juvenile Justice Specialist
- Police Officer
- Homeland Security Agent

PROFESSIONAL NURSING AS DEGREE

CAREER OPPORTUNITIES IN:

- Hospitals
- Clinics
- Rehabilitation Centers
- Long-Term Care Facilities

OBJECTIVE:

The objective of the Professional Nursing program is to provide the knowledge, clinical skills, nursing values, meanings and experience necessary for an entry-level professional nursing position; and in turn facilitate competency in the core components of professional nursing: professional behavior, communication, assessment, clinical decision making, caring interventions, teaching and learning, collaboration and managing care. This program is designed to prepare the graduate to utilize and apply the nursing process (assessment, diagnosis, planning, intervention and evaluation) to provide care across the life span and in diverse settings within the healthcare continuum. Upon successful completion of this program, the graduate will receive an Associate of Applied Science Degree in Nursing and will be eligible to sit for the National Council Licensure Examination for Registered Nurses (NCLEX-RN) to obtain licensure as a registered nurse.

In addition to the courses listed, at designated points in their programs of study, students are required to complete with a passing grade a seminar course. Students must complete the Junior Seminar during the quarter in which they finish the Associate's degree requirements to graduate from an Associate's degree program.

This program is only offered at the Mankato, Bloomington and St. Cloud campuses.

Applicants to this program must meet program-specific admissions requirements, in addition to all general Rasmussen College admissions requirements. Please see the application procedures for this program under Academic Information and College Policies.

In addition to meeting all other admissions requirements, Minnesota campus applicants to this program must successfully complete and pass a Minnesota Department of Human Services background check.

To graduate in this program, students must complete all required GN, MA, and NU coursework with a grade of C or better, achieve all required skill competencies, and satisfactorily complete all required clinical learning experiences.

MOBILITY BRIDGE ENTRANCE OPTION

Students who have successfully completed a practical nursing program and hold a current practical nursing license will receive credit for NU117 Nutritional Principles in Nursing (4 credits) and NU203 Fundamentals of Professional Nursing (6 credits) in the Professional Nursing AS Degree program. Students may also transfer in up to 47 credits in successfully completed applicable general education coursework; graduates of Rasmussen College's Practical Nursing program will receive credit for G124 English Composition, G233 College Algebra, and the Communication course the student completed in the Practical Nursing program (for a total of 12 additional general education credits). Students must successfully complete all remaining coursework in the Professional Nursing AS Degree program to earn this degree.

PRACTICAL NURSING DIPLOMA

CAREER OPPORTUNITIES IN:

- Hospitals
- Assisted Living Centers
- Clinics
- Dental Offices
- Long-Term Care Facilities
- Physician's Offices

OBJECTIVE:

Graduates of this program are prepared to function as an entry-level practical nurse under the direction of a registered nurse, physician, or dentist. They can implement psychomotor technical skills that meet current standards of practice; apply scientific knowledge and skills to meet the biological, psychosocial, cultural, and spiritual needs of the patient; provide maintenance, preventative, therapeutic, rehabilitative, and/or supportive care; communicate clear, concise, accurate, complete, and timely information to members of the healthcare team; use therapeutic communication to build and maintain therapeutic relationships with patients and their significant support person(s); use the nursing process to gather data, contribute to nursing diagnosis, guide nursing actions, and contribute to the plan of care; and provide basic individualized, holistic, and culturally sensitive nursing care for patients across the lifespan in a variety of settings. They can implement a personal practice standard that adheres to the legal and ethical standards of the practical nurse as defined by NFLPN and NAPNES. Graduates value critical thinking, communication, diverse perspectives, technology and information literacy, and post-licensure continuing education as a way to build on previous knowledge and skills and increase competency. Upon successful completion of this program, the graduate will receive a Diploma in Practical Nursing and will be eligible to sit for the National Council Licensure Examination for Practical Nurses (NCLEX-PN) to obtain licensure as a practical nurse.

PN153 Practical Nursing II	6
PN167 Psychosocial Nursing	4
PN174 Practical Nursing III	6
PN180 Family Nursing	4
PN197 Practical Nursing Capstone	2
Total Diploma Credits	62
General Education Credits	16
Major and Core Credits	46
TOTAL DIPLOMA DEGREE CREDITS	62

SEE PAGE 43 FOR GENERAL EDUCATION COURSE SELECTIONS.

This program is offered at the Brooklyn Park/Maple Grove, Eagan, Mankato, Moorhead, and St. Cloud campuses.

In addition to the courses listed, at designated points in their programs of study, students are required to complete with a passing grade a seminar course. Students must complete the Sophomore Seminar during the quarter in which they finish the Diploma course requirements.

To graduate in this program, students must complete all required NU and PN coursework with a grade of C or better, achieve all required skill competencies, and satisfactorily complete all required clinical learning experiences.

Applicants to this program must meet program-specific admissions requirements, in addition to all general Rasmussen College admissions requirements. Please see the application procedures for this program under Academic Information and College Policies.

In addition to meeting all other admissions requirements, applicants to this program must successfully complete and pass a criminal background check and must also submit to a Minnesota Department of Human Services background check

COURSE DESCRIPTIONS**A332 Accounting for Business Managers (pg. 45)**

Add the following course description:

**A332 Accounting for Business Managers
40 hours, 4 credits**

This course provides a review of accounting objectives and their relation to business, as well as a survey of the theory and application of managerial accounting principles. Topics include cost behaviors, production costing methods, data processing, economic analysis, budgeting, and management and financial control.

Prerequisite: none

B316 Applied Management Principles (pg. 47)

Add the following course description:

**B316 Applied Management Principles
40 hours, 4 credits**

This course will review foundational management skills and insights derived from the study of management practices. Through theory, self analysis, and analysis of others, this course provides students with the knowledge, skills, and attitudes needed to become an effective manager. Specific topics covered include managing stress; solving problems; coaching; influencing and motivating others; team-building; and leading change.

Prerequisite: none

B439 Business Law and Ethics (pg. 47)

Add the following course description:

**B439 Business Law and Ethics
40 hours, 4 credits**

This course reviews fundamental principles of law applicable to business transactions, and provides overview of the current moral and ethical issues that arise in the world of business. Students will examine the law, legal system, and ethics and how they apply to the business world and business transactions. Public and private law are addressed. Critical thinking and ethical analysis are key areas of focus throughout the course.

Prerequisite: none

EK100 Introduction to Electrocardiograms (pg. 49) Add the following course description:**EK100 Introduction to Electrocardiograms
50 hours, 4 credits**

This course provides an introduction to performing and interpreting electrocardiograms. In this course, students will identify a basic EKG using a systemic approach. Students will also learn how to use EKG equipment and practice safety procedures for patients. Topics include patient medical records and regulations, patient communication, and basic functions of the cardiac system.

Prerequisite: none

EK115 Cardiovascular Anatomy and Pathology(pg. 49)

Add the following course description:

**EK115 Cardiovascular Anatomy and Pathology
40 hours, 4 credits**

This course provides students with a focused exploration of the anatomy and diseases of the cardiovascular system. Students will learn about the basic mechanism that regulates the cardiac cycle and the relationship between disease processes and electrocardiography (EKG) results. In this course, students will also discuss how research and evidence based education of disease processes affect EKG monitoring.

Prerequisites: Introduction to Electrocardiograms;
Structure and Function of the Human Body

EK200 Advanced Electrocardiograms (pg. 49) Add the following course description:**EK200 Advanced Electrocardiograms
60 hours, 4 credits**

In this course students will develop skills to ensure patient knowledge and safety during cardiac monitoring. The use of advanced EKG equipment will provide an opportunity to analyze complex EKG rhythms and apply advanced cardiac monitoring practices. Students will also learn how to apply research and evidence based education to monitoring practices.

Prerequisite: Introduction to Electrocardiograms

EK290 EKG Externship and Capstone (pg. 49) Add the following course description:**EK290 EKG Externship and Capstone
100 hours, 4 credits**

This course is designed to provide the student with experience in a clinical setting that includes performing cardiac testing, evaluating EKG results, and effectively communicating with patients and patient care team. During the practical experience, students will participate in a program capstone that will assist students during their externship and prepare students for a certification exam.

Prerequisite: Advanced Electrocardiograms

G123 Principles of Economics (pg.49) Add the following course description:**G123 Principles of Economics
40 hours, 4 credits**

This course offers a broad overview of economic theory, history, and development. Philosophies, policies, and terms of market economies will be explored. This course includes microeconomic and macroeconomic concepts.

Prerequisite: none

G217 Human Growth and Development (pg. 50)

Add the following course description:

G217 Human Growth and Development

40 hours, 4 credits

This course consists of the study of the development of the individual throughout the life cycle, including child, adolescent and adult patterns of behavior with attention to physical, intellectual, cognitive, personality, and social development.

Prerequisite: none

J140 Field Communications in Criminal Justice (pg. 53)

Add the following course description:

J140 Field Communications in Criminal Justice

20 hours, 2 credits

This course emphasizes the skills of both oral and written communication with emphasis on writing formats used by justice professionals. Students will acquire the skills necessary to effectively communicate within diverse communities.

Prerequisite: Introduction to Criminal Justice

J150 Introduction to Criminal Law (pg. 53) Add the following course description:

J150 Introduction to Criminal Law

40 hours, 4 credits

In this course, students are introduced to the Federal and State court systems. This course examines substantive criminal, definitions of crime, and principles of criminal responsibility. The course will use case studies for application of general principles to the law. Statutory defenses, mitigating factors, and circumstances which may excuse criminal responsibility and common law principles are examined.

Prerequisite: Introduction to Criminal Justice

J170 Applied Criminal Procedures (pg. 53) Add the following course description:

J170 Applied Criminal Procedures

40 hours, 4 credits

This course provides an examination of procedural requirements for the judicial processing of criminal offenders. The concepts of evidence sufficiency, standards of proof, and due process are explored. Students will examine the Bill of Rights and its applicability to the criminal justice process.

Prerequisite: Introduction to Criminal Law

J246 Practical Psychology for the Criminal Justice Professional (pg. 53) Add the following course description:

J246 Practical Psychology for the Criminal Justice Professional

40 hours, 4 credits

Students will examine how principles of psychology relate to the field of criminal justice. They will explore fundamental concepts from a criminal justice perspective, focusing on the real-world effects these principles produce on criminal justice professionals, their families, and the citizens they serve. Students will apply ideas from psychology to create effective victim and witness interviewing strategies, offender behavior-modification approaches, and coping methods. They will review the immediate and long-term physiological and psychological effects of stress, trauma, and occupational experiences unique to the profession.

Prerequisites: General Psychology; Introduction to Criminal Justice

J270 Critical Thinking and Evidence-Based Practices in Criminal Justice (pg. 53) Add the following course description:

J270 Critical Thinking and Evidence-Based Practices in Criminal Justice

40 hours, 4 credits

This course is designed to focus on a wide variety of problem solving skills. These include scenario based problem solving and evidence based practices. The inter-related skills necessary for effective problem solving in a criminal justice context are emphasized. The development of evidence based practices will be explored and the incorporation of such practices in the field of criminal justice will be analyzed.

Prerequisites: Policing in America; Criminal Procedures; and Introduction to Corrections

LE240 Minnesota Criminal Code (pg. 54)

Course number for Minnesota Criminal Code is LE245.

LE245 Minnesota Traffic Code (pg. 54)

Course number for Minnesota Traffic Code is LE240.

M105 Introduction to Electronic Health Records (pg. 55)

Add the following course description:

M105 Introduction to Electronic Health Records

30 hours, 3 credits

In this course, student will focus on the basics of Electronic Health Record (EHR) keeping of patient health information in a medical care delivery setting. An emphasis on emerging technologies in EHR, and their potential application in evidence-based practice will be studied. The scope of the course is designed to familiarize students with the clinical patient encounter, as well as electronically supporting other care-related, and outcomes reporting.

Prerequisites: none

MA110 Clinical Skills I (pg. 55)

Delete prerequisite in its entirety and replace with the following:

Prerequisites: Introduction to Medical Assisting; Medical Terminology

Pre- or Co-requisite: Structure and Function of the Human Body

MA145 Clinical Skills II (pg. 56)

Delete prerequisites and co-requisites in their entirety and replace with the following:

Prerequisites: Laboratory Skills for Medical Assisting; Pathophysiology

MA225 Laboratory Skills for Medical Assisting (pg. 56)

Delete prerequisites and co-requisites in their entirety and replace with the following:

Prerequisite: Clinical Skills I

MA241 Human Anatomy & Physiology I (pg. 56)

Change prerequisite to “Pre- or Co-requisite: Introduction to Human Biology.”

N440 Web Design Project (pg. 60) Change prerequisite to Advanced HTML Coding with CSS.

NU117 Nutritional Principles in Nursing (pg. 61)

Add the following course description:

**NU117 Nutritional Principles in Nursing
40 hours, 4 credits**

This course introduces the student to the chemical processes that occur on a cellular level related to nutrient intake and digestion. Emphasis is placed on the concept of Metabolism and the body's ability to meet basic health and wellness needs as it pertains to a diverse set of clients across the life span. Students will be introduced to basic physiological concepts and are encouraged to explore Clinical and Nursing Judgment, Education and Health Promotion, and Motivational Wellness. Special emphasis is placed on Growth and Development, Cellular Regulation, and clinical nutrition in order to prepare the student to critically apply these principles throughout the nursing program in the form of knowledge, skills, and attitudes.

Prerequisite: Admission to a Nursing Program

NU124 Introduction to Professional Nursing (pg. 61)

Add the following course description:

**NU124 Introduction to Professional Nursing
40 hours, 4 credits**

This course introduces the student to key concepts of Professional Nursing. The student will be exposed to the professional expectations and scope of practice for the Registered Nurse in diverse healthcare settings. Also

included are aspects of patient-centered care based upon evidence and quality. The Concept-based framework for the Professional Nursing Program is introduced, along with the fundamental QSEN Core Competencies. Special emphasis is placed on Interdisciplinary Collaboration, Communication, and Professionalism. Students will gain the knowledge, skills, and attitudes needed to practice safely in the nursing profession in the role of the Registered Nurse by discovering their own learning styles and personal identities.

Prerequisite: Admission to the Professional Nursing Program

NU138 Introduction to Critical Thinking, Informatics, and Ethical Concepts in Professional Nursing (pg. 62)

Add the following course description:

**NU138 Introduction to Critical Thinking, Informatics, and Ethical Concepts in Professional Nursing
40 hours, 4 credits**

This course introduces students to critical thinking as a professional nurse by providing the theoretical basis for problem-solving embedded in Clinical Judgment. Building upon these critical thinking skills, ethical concepts are crucially examined and nursing informatics is introduced within the healthcare infrastructure. Special emphasis is placed on Nursing Ethics and Law, Clinical Judgment, Evidence-Based Practice, Nursing Informatics, and Quality Improvement. Students are challenged to explore evidence-based solutions to key issues and trends that are relevant to the Professional Nurse's role based on current trends and issues in healthcare.

Prerequisite: Admission to the Professional Nursing Program

NU203 Fundamentals of Professional Nursing (pg. 62)

Add the following course description:

**NU203 Fundamentals of Professional Nursing
107.5 hours, 6 credits**

This course is comprised of a theory, lab, and clinical component where professional nursing students are introduced to the fundamental concepts and nursing abilities required to meet basic health and wellness needs. The theoretical basis for patient-centered care, functional ability, and basic physiologic concepts are presented. Emphasis is placed on skills related to mobility, elimination, gas exchange, inflammation, infection, tissue integrity, glucose regulation, thermoregulation, and pain. This course will continue to build upon the knowledge, skills, and attitudes needed to provide safe, quality care for a diverse set of clients across the lifespan with a special emphasis on attitudes required to master communication, interdisciplinary collaboration, evidence-based practice, clinical judgment, professionalism, and nursing informatics. The student must demonstrate proficiency in a variety of nursing skills in order to successfully complete this course.

Pre- or Co-requisites: Introduction to Professional Nursing; Introduction to Critical Thinking, Informatics, and Ethical Concepts in Professional Nursing

NU213 Comprehensive Pharmacology (pg. 62)

Add the following course description:

NU213 Comprehensive Pharmacology

80 hours, 6 credits

This course is comprised of a theory and lab component where students acquire knowledge, skills, and attitudes to safely and effectively provide pharmacologic therapies to patients. Emphasis is placed on pharmacotherapeutics, pharmacokinetics, pharmacodynamics, the current “rights of medication administration”, dosage calculation, patient education, and motivational wellness. The course will continue to build upon critical thinking concepts and clinical judgment to ensure safe, quality care in the administration of prescription, over-the-counter, and complementary and alternative medication at a beginning Professional Registered Nurse skill Level. The student must demonstrate proficiency in a variety of clinical skills, related to medication administration within the lab setting, in order to successfully complete this course.

Pre- or Co-requisites: Human Anatomy and Physiology II; Introduction to Microbiology

NU223 Professional Nursing I (pg. 62)

Add the following course description:

NU223 Professional Nursing I

107.5 hours, 6 credits

This course is comprised of a theory, lab, and clinical component where students are building on the fundamental concepts and clinical judgment required to meet basic health and wellness needs. Emphasis is placed on Surgical Integrity, Pain Management, Gas Exchange, Immunity, and Infection control. The theoretical basis for Fluid/Electrolyte and Acid-Base Balance, Cardiovascular/Coagulation Integrity, Perfusion, and Thermoregulation will be introduced within this course. Previously introduced concepts such as inflammation, tissue integrity, elimination, mobility, health promotion, and education will be further explored. The student must demonstrate increasing proficiency in all knowledge, skills, and attitudes needed to provide, safe, quality care for a diverse set of clients across the lifespan in order to successfully complete this course.

Prerequisite: Fundamentals of Professional Nursing

Pre- or Co-requisites: Comprehensive Pharmacology; Nutritional Principles in Nursing

NU237 Mental Health Nursing (pg. 62)

Add the following course description:

NU237 Mental Health Nursing

55 hours, 4 credits

This course is comprised of a theory and clinical component where students acquire knowledge, skills, and

attitudes to safely and effectively care for clients with mental health and behavioral disorders across the lifespan in a variety of clinical environments. Emphasis is placed on Functional Ability, inclusive of concepts such as Cognition, Addiction, Mood and Affect, Stress and Coping, Anxiety, Psychosis, and Violence. Special emphasis will be placed on Communication, Motivational Wellness, Nursing Ethics and Law, and Advocacy as it pertains to this nursing specialty. The student must demonstrate proficiency in a variety of clinical skills and attitudes, inclusive of therapeutic communication, appropriate affective interactions, pharmacotherapeutic education, and patient-centered, holistic care in order to successfully complete this course.

Prerequisite: Fundamentals of Professional Nursing

NU241 Professional Nursing II (pg. 62)

Add the following course description:

NU241 Professional Nursing II

110 hours, 6 credits

This course is comprised of a theory, lab, and clinical component where students are building on the fundamental concepts and nursing abilities developed in Professional Nursing I. Emphasis is placed on concepts such as intracranial regulation, sensory perception, glucose regulation, metabolism, and immunity. This course will continue to build on previous concepts with a special emphasis on mobility, elimination, cardiovascular/coagulation integrity, perfusion, fluid/electrolyte and acid/base balance, gas exchange, and thermoregulation. The theoretical basis for Clinical Judgment, as it relates to Communication, Interdisciplinary Collaboration, and Evidence-Based Practice in the Clinical Setting, is required for successful completion of this course. The student must demonstrate increasing proficiency in all knowledge, skills, and attitudes needed to provide, safe, quality care for a diverse set of clients across the lifespan.

Prerequisite: Professional Nursing I

NU255 Maternal Child Health Nursing (pg. 62)

Add the following course description:

NU255 Maternal Child Health Nursing

60 hours, 4 credits

This course consists of both a theory and clinical component that focus on the Knowledge, Skills, and Attitudes required to function in the appropriate role of the beginning Professional Registered Nurse in an acute care Obstetrics/Maternity Setting, Pediatric Setting, or similar environment. Emphasis is placed on Reproduction as well as Growth and Development. Special Emphasis is placed on Surgical Integrity, Glucose Regulation, Infection Control, and Patient-Centered Care as it applies to this diverse group of clients. The theoretical basis for Complementary and Alternative Medicine, in conjunction with specific pharmacologic therapies for these clients will

be examined. Students are required to critically apply all previously introduced Health and Wellness Concepts, as well as Metabolism, Education, Health Promotion, and Clinical Judgment, to content-specific exemplars presented in this course. The student must achieve proficiency in a variety of nursing skills and attitudes, inclusive of psychomotor skills and affective interactions in the clinical setting, in order to successfully complete this course.

Prerequisite: Professional Nursing II

NU260 Professional Nursing III (pg. 62)

Add the following course description:

NU260 Professional Nursing III

117.5 hours, 6 credits

This course is comprised of a theory, lab, and clinical component where students are completing their development of the fundamental concepts and nursing abilities required for the Professional Registered Nurse Role. Emphasis is placed on concepts such as Cellular Regulation, End-of-Life Integrity, Complementary and Alternative Therapies, and Crisis/Disaster Nursing. This course will continue to build on previous concepts with a special emphasis on Cardiovascular Integrity, Perfusion, Gas Exchange, Fluid/Electrolyte and Acid/Base Balance, and Tissue Integrity. The theoretical basis for Clinical Judgment, as it relates to Patient-Centered Care, Evidence-Based Practice, and Nursing Informatics in the Clinical Setting is required for successful completion of this course. The student must also demonstrate increasing proficiency in knowledge, skills, and attitudes necessary to provide, safe, quality care for a diverse set of clients across the lifespan.

Prerequisite: Professional Nursing II

NU273 Role, Scope, Quality, and Leadership in Professional Nursing (pg. 62)

Add the following course description:

NU273 Role, Scope, Quality, and Leadership in Professional Nursing

80 hours, 4 credits

This course is comprised of a theory and clinical component where students are able to demonstrate the knowledge, skills, and attitudes gained throughout the Professional Nursing Program. Emphasis is placed on Clinical Judgment, Professionalism, Quality Improvement, and Leadership. In order to successfully complete this course, the student must exhibit appropriate characteristics in the clinical setting related to Communication, Interdisciplinary Collaboration, Advocacy, Patient-Centered Care, Evidence-Based Practice, Education, Health Promotion, and Motivational Wellness. The student must also demonstrate proficiency in all knowledge, skills, and attitudes necessary to provide, safe, quality care for a diverse set of clients across the lifespan at the level of a beginning graduate Professional Registered Nurse to complete this course.

Prerequisite: Professional Nursing III

NU294 Professional Nursing Capstone (pg. 62)

Add the following course description:

NU294 Professional Nursing Capstone

20 hours, 2 credits

This course reflects on the student's journey through the Professional Nursing Program, prepares the student for licensure, and mentors the student on transition to practice. The Concept-Based Framework is reviewed, along with the fundamental QSEN Core Competencies with special emphasis on Professionalism, Individual Functional Ability, and Leadership. Students will delve into the knowledge, skills, and attitudes needed to successfully complete the NCLEX-RN and safely transition to a beginning Graduate Professional Registered Nurse role.

Pre- or Co-requisites: Professional Nursing III; Role, Scope, Quality, and Leadership in Professional Nursing

PB100 Introduction to Laboratory Processing (pg. 62) Add

the following course description:

PB100 Introduction to Laboratory Processing

50 hours, 4 credits

This course will introduce the role of the phlebotomist in a clinical laboratory setting. Students will learn how to adhere to safety and compliance regulations related to specimen collection and processing. This course also focuses on pre-analytic factors of the sample or patient as they relate to and influence laboratory procedures.

Prerequisite: none

PB105 Phlebotomy (pg. 62) Add the following course description:

PB105 Phlebotomy

40 hours, 3 credits

In this course, students will learn the skills to perform a variety of blood collection methods using proper techniques and universal precautions. This course will emphasize proper patient identification and applying the principles of safety and infection control. The student laboratory setting will provide an opportunity to perform basic phlebotomy procedures.

Prerequisite: none

PB205 Phlebotomy II (pg. 62) Add the following course description:

PB205 Phlebotomy II

50 hours, 4 credits

In this course, students will perform and observe specialized specimen collection, CLIA waived laboratory testing, and collection of donor units. This course will also focus on specimen handling and transporting and assuring patient and provider safety in a variety of settings. Students will learn to develop skills to communicate with

diverse patients, patient advocates, and healthcare providers.

Prerequisite: Phlebotomy

PB290 Phlebotomy Externship and Capstone (pg. 62) Add the following course description:

PB290 Phlebotomy Externship and Capstone
130 hours, 5 credits

This course is designed to provide the student with experience in a clinical setting that includes specimen collection and handling and processing. Students will learn to effectively communicate with diverse patient populations and patient care teams. During the practical experience, students will participate in a program capstone that is designed to assist students during their externship and prepare them for a certification exam.

Prerequisites: Phlebotomy II; Introduction to Laboratory Processing

PC150 Patient Care Skills I (pg. 62) Add the following course description:

PC150 Patient Care Skills I
40 hours, 3 credits

This course introduces the student to the role of the patient care technician in healthcare. The student is introduced to the patient care process, therapeutic communication, and universal precautions. Students will develop the skills to provide comfort, safety, and security for patients. Topics include patient care health promotion techniques, patient rights, and legal issues related to the management of medical information and documentation.

Prerequisite: none

PC250 Patient Care Skills II (pg. 62) Add the following course description:

PC250 Patient Care Skills II
70 hours, 5 credits

In this course students will apply patient care technician techniques and develop skills for data collection and interpretation as they relate to mobility and patient care needs. Students will also apply therapeutic communication techniques and learn how to protect patient rights while communicating with various healthcare teams and patient advocates.

Prerequisite: Patient Care Skills I

PC290 Patient Care Technician Externship and Capstone (pg. 62) Add the following course description:

PC290 Patient Care Technician Externship and Capstone
100 hours, 4 credits

This course is designed to provide the student with supervised experience as a patient care technician in a healthcare setting. Students will apply proper health promotion and prevention skills and patient and provider

safety techniques. Also included in this course are opportunities to apply EKG and phlebotomy skills and techniques. During the practical experience students will participate in a program capstone that is designed to assist students during their externship and prepare students for a certification exam

Prerequisite: Patient Care Skills II

PN106 Fundamentals of Practical Nursing (pg. 63)

Add the following course description:

PN106 Fundamentals of Practical Nursing
112.5 hours, 6 credits

This course is comprised of a theory, lab, and clinical component where students are introduced to the fundamental concepts and nursing abilities required to meet basic health and wellness needs. The theoretical basis for nursing judgment, patient-centered care, growth and development, and basic physiological concepts are presented. Emphasis is placed on knowledge, skills, and attitudes needed to provide safe, quality care for a diverse set of clients across the lifespan. Special emphasis is placed on teamwork, communication, and nursing informatics as it pertains to the healthcare infrastructure. The student must demonstrate proficiency in a variety of nursing skills in order to successfully complete this course.

Prerequisite: Admission to the Practical Nursing Program
Pre- or Co-requisite: Introduction to Practical Nursing

PN108 Introduction to Practical Nursing (pg. 63)

Add the following course description:

PN108 Introduction to Practical Nursing
20 hours, 2 credits

This course introduces the student to key concepts of Practical Nursing. The student will be exposed to the practical nursing expectations and scope of practice in diverse healthcare settings. Also included are aspects of patient-centered care based upon evidence and quality. The Concept-based framework for the Practical Nursing Program is introduced, along with the fundamental QSEN Core Competencies. Special emphasis is placed on Teamwork, Communication, and Nursing informatics. Students will delve into the knowledge, skills, and attitudes needed to practice safely in the nursing profession by discovering their own learning styles and personal identities.

Prerequisite: Admission to the Practical Nursing Program

PN114 Practical Nursing I (pg. 63)

Add the following course description:

PN114 Practical Nursing I
110 hours, 6 credits

This course is comprised of a theory, lab, and clinical component where students are building on the functional ability and nursing judgment required to meet basic health and wellness needs. Emphasis is placed on concepts such

as oxygenation, cardiovascular integrity, tissue integrity, and infection control. Fluid/Electrolyte and Acid/Base Balance will be introduced within this course. The theoretical bases for Education and Health Promotion, as well as Pain Management, are presented. The student must demonstrate increasing proficiency in all knowledge, skills, and attitudes needed to provide, safe, quality care for a diverse set of clients across the lifespan in order to successfully complete this course.

Prerequisite: Fundamentals of Practical Nursing

Pre – or Co-requisites: Basic Pharmacology; Nutritional Principles for Nurses

PN123 Basic Pharmacology (pg. 63)

Add the following course description:

PN123 Basic Pharmacology

40 hours, 3 credits

This course is comprised of a theory and lab component where students acquire knowledge, skills, and attitudes to safely and effectively provide pharmacologic therapies to patients. Theoretical Emphasis is placed on Absorption, Distribution, Metabolism, and Excretion (ADME), as well as the current “rights of medication administration,” and basic dosage calculation. Patient education and motivational wellness will be introduced. The course will continue to build upon critical thinking concepts and nursing judgment to ensure basic safety in the administration of medications at a beginning Practical Nurse skill level. The student must demonstrate proficiency in a variety of clinical skills, related to medication administration within the lab setting, in order to successfully complete this course.

Pre- or Co-requisite: Structure and Function of the Human Body

PN148 Gerontologic Nursing (pg. 63)

Add the following course description:

PN148 Gerontologic Nursing

30 hours, 3 credits

This course is comprised of a theory component where students acquire knowledge, skills, and attitudes to safely and effectively support the Functional Ability of the aging adult. Emphasis is placed on concepts such as Emotional and Cognitive Integrity, Neurological Adaptation, and End-of-Life Integrity. This course will continue to build on concepts required to meet basic health and wellness needs that are specific to the aging adult, Communication, as well as Nursing Ethics and Law as it applies to this specific population. Students are expected to apply Nursing Judgment and Critical Thought to principles presented in this course throughout concurrent and future Nursing Lab and Clinical Experiences.

Prerequisite: Fundamentals of Practical Nursing

Pre- or Co-requisites: Basic Pharmacology; Nutritional Principles in Nursing

PN153 Practical Nursing II (pg. 63)

Add the following course description:

PN153 Practical Nursing II

110 hours, 6 credits

This course is comprised of a theory, lab, and clinical component where students are building on the fundamental concepts and nursing abilities developed in Practical Nursing I. Emphasis is placed on concepts such as Surgical Integrity, Pain Management, and Glucose Regulation. This course will continue to build on previous concepts with a special emphasis on Fluid/Electrolyte and Acid/Base Balance, Elimination, Mobility, and Infection Control. The theoretical basis for Nursing Judgment, as it relates to Communication and Teamwork in the Clinical Setting, is required for successful completion of this course. The student must also demonstrate increasing proficiency in all knowledge, skills, and attitudes necessary to provide, safe, quality care for a diverse set of clients across the lifespan.

Prerequisite: Practical Nursing I

PN167 Psychosocial Nursing (pg. 63)

Add the following course description:

PN167 Psychosocial Nursing

55 hours, 4 credits

This course consists of both a theory and clinical component that focuses on the care of clients with mental health and behavioral disorders across the lifespan in a variety of clinical settings. Emphasis is placed on concepts such as Emotional and Cognitive Integrity, Motivational Wellness, Psychosocial Integrity, Addiction, and Violence. Special emphasis will be placed on Nursing Judgment related to Patient-Centered Care, Teamwork, and Communication when approaching this diverse group of clients. The theoretical basis for Complementary and Alternative Medicine, as it applies to pharmacologic therapies in this setting, will be introduced. The student must achieve proficiency in a variety of nursing skills and attitudes, inclusive of psychomotor skills and affective interactions in the clinical setting, in order to successfully complete this course.

Prerequisite: Practical Nursing I

PN174 Practical Nursing III (pg. 63)

Add the following course description:

PN174 Practical Nursing III

115 hours, 6 credits

This course is comprised of a theory, lab, and clinical component where students are completing their development of the fundamental concepts and nursing abilities required for the Practical Nursing Role. Emphasis is placed on concepts such as Neurological Adaptation, Cellular Regulation, Holistic Therapy, and Crisis/Disaster Nursing. This course will continue to build on previous concepts with a special emphasis on Thermoregulation, Cardiovascular Integrity, Tissue Integrity, and Infection

Control. The theoretical basis for Nursing Judgment, as it relates to Quality Improvement, Patient-Centered Care, and Leadership in the Clinical Setting is required for successful completion of this course. The student must also demonstrate proficiency in all knowledge, skills, and attitudes necessary to provide, safe, quality care for a diverse set of clients across the lifespan in order to successfully complete the series.

Prerequisite: Practical Nursing II

PN180 Family Nursing (pg. 63)

Add the following course description:

PN180 Family Nursing

60 hours, 4 credits

This course consists of both a theory and clinical component that focus on the Knowledge, Skills, and Attitudes required to function in the appropriate role of the Practical Nurse in a Family Health Clinic, Pediatric Clinical Setting, or similar environment. Emphasis is placed on Reproduction as well as Growth and Development. Special Emphasis is placed on Surgical Integrity, Glucose Regulation, Infection Control, and Patient-Centered Care as it applies to this diverse group of clients. The theoretical basis for Complementary and Alternative Medicine, in conjunction with specific pharmacologic therapies for these clients will be introduced. Students are required to critically apply all previously introduced Health and Wellness Concepts, as well as Metabolism and Nursing Judgment, to content-specific exemplars presented in this course. The student must achieve proficiency in a variety of nursing skills and attitudes, inclusive of psychomotor skills and affective interactions in the clinical setting, in order to successfully complete this course.

Prerequisite: Practical Nursing II

Pre – or Co-requisite: Psychosocial Nursing

PN197 Practical Nursing Capstone (pg. 63)

Add the following course description:

PN197 Practical Nursing Capstone

20 hours, 2 credits

This course reflects on the student's journey through the Practical Nursing Program, prepares the student for licensure, and mentors the student on transition to practice. The Concept-Based Framework is reviewed, along with the fundamental QSEN Core Competencies with special emphasis on Quality Improvement, Professionalism, and Leadership. Students will delve into the knowledge, skills, and attitudes needed to successfully complete the NCLEX-PN and safely transition to a beginning Graduate Practical Nurse role.

Prerequisite: Practical Nursing III

ST106 Fundamentals of Surgical Technology (pg. 63)

Change course number to ST100. Course has 70 hours, 4 credits.

ST112 Surgical Procedures I (pg. 63)

Delete course description in its entirety and replace with the following:

ST110 Surgical Procedures I

70 hours, 4 credits

This course will expand on the duties and responsibilities as the role of scrub or STSR and circulator in the field of surgical technology. Areas explored and applied in this course include wound healing, surgical case management, instrumentation, diagnostic procedures, and an introduction to general surgery and the scrub role. This course is a preparatory class for Surgical Procedures II.

Prerequisite: Fundamentals of Surgical Technology

ST203 Surgical Procedures II (pg. 63)

Delete course number and description in their entirety and replace with the following:

ST209 Surgical Procedures II

70 hours, 4 credits

This course further expands upon the duties and responsibilities as the role of scrub in the field of surgical technology. Surgical areas explored and applied in this course include obstetrics/gynecology, ophthalmic, otorhinolaryngologic, maxillofacial, plastic and reconstructive. This course is a preparatory class for Surgical Procedures III and Surgical Practicum I and II.

Prerequisite: Surgical Procedures I

ST207 Surgical Procedures III (pg. 64)

Delete course number and description in their entirety and replace with the following:

ST214 Surgical Procedures III

70 hours, 4 credits

This course will expand on the duties and responsibilities as the role of scrub in the field of surgical technology. Surgical areas explored and applied in this course include, genitourinary, orthopedic, cardiothoracic, peripheral vascular, and neurosurgery. This course is a preparatory class for Surgical Practicum I and II.

Prerequisites: Surgical Procedures II

Add:

BSC 2087C Human Anatomy and Physiology I

60 hours, 5 credits

In this course students will begin their study of the structure and function of the human body. They will examine topics including basic chemistry and cell biology,

tissues, and the integumentary, skeletal, muscular, nervous, sensory, and endocrine systems of the body, and will learn medical terminology. Students will complete laboratory exercises coordinated with course content and including microscopic observation, experimentation, study of anatomical models, and dissection activities.

Prerequisite: Introduction to Human Biology (except for students enrolled in the Medical Assisting program)

Add:

**BSC 2089C Human Anatomy and Physiology II
60 hours, 5 credits**

In this course, students will continue their study of human anatomy and physiology begun in Human Anatomy and Physiology I. They will examine the circulatory, lymphatic and immune, respiratory, urinary, digestive, and reproductive systems, as well as fluid and electrolyte balance, acid-base balance, and nutrition and metabolism. Students will complete laboratory exercises coordinated with course content and including microscopic observation, experimentation, study of anatomical models, and dissection activities.

Prerequisite: Human Anatomy and Physiology I

Add:

**HUN 2202 Human Nutrition
40 hours, 4 credits**

This course introduces the student to principles of nutrition and the role of nutrients in health and common alterations in health throughout the life cycle. An introduction to clinical nutrition is included to prepare the student to apply these principles to the individual, family, community, and clinical areas.

Prerequisite: none

Add:

**MCB 2010C Introduction to Microbiology
70 hours, 5 credits**

This course provides an introduction to microbiology that emphasizes effects of microorganisms on human systems. Topics include microbial cell structure, function and metabolism; requirements for and control of growth; genetics, mutations, and biotechnology; a survey of bacteria, viruses, algae, fungi, protozoa and helminthes; interactions with and impact of microbes on humans, including mechanisms of pathogenicity.

Prerequisite: none

Add:

**NUR 1020C Fundamentals of Nursing
230 hours, 13 credits**

This course provides a foundation for the nursing program. It introduces the student to the history and practice of nursing, including the standard of nursing practice. The nursing process is introduced and used as an approach to

nursing care with emphasis on assessment of basic human needs relating to oxygenation, nutrition, elimination, comfort and safety, security, and mobility. Critical thinking as embodied in the nursing process is emphasized and the concept of the nurse as provider of care, manager of care and member of the nursing profession is incorporated into the course content. This course integrates community health concepts and prepares entry-level nurses to work effectively in multiple roles, with individuals, families, and communities; addressing the varied clients and different settings in which nurses practice. Theoretical knowledge and principles are applied in the skills laboratory and clinical setting. Normal functional health patterns are explored in the context of the physical, biological and social sciences.

Prerequisites: Comprehensive Pharmacology;
Comprehensive Pharmacology Lab

Add:

**NUR 1144 Comprehensive Pharmacology
40 hours, 4 credits**

This course provides an overview of essential concepts and principles of pharmacology as applied in the nursing management of client care, to include an overview of drug classifications, drug actions/interactions, and therapeutic and adverse reactions to medications. Students demonstrate proficiency with the use of problem-solving skills and mathematical calculations necessary to perform the nursing role. This course provides the foundation for subsequent coursework.

Prerequisite: none

Add:

**NUR 1144L Comprehensive Pharmacology Lab
40 hours, 2 credits**

This course prepares the student to administer medications. The six "rights" of administration, dosage calculation, routes of administration, proper use and storage of medications, patient observation and documentation are included. Clinical skills are practiced in the nursing lab. This course includes the practice and demonstration of medication administration.

Prerequisite: none

Co-requisite: Comprehensive Pharmacology

Add:

**NUR 1211C Adult Nursing I
230 hours, 13 credits**

This is the first of three adult-health nursing courses. In this course, students continue to develop their role as a member of the profession of nursing as a provider of care to clients across the lifespan with uncomplicated medical surgical alterations in health. Pathophysiologic mechanisms of diseases are covered as well as assessment and nursing management with a special emphasis on the

chronically ill client. The course curriculum includes concepts that are socially diverse, cultural, and ethnic in nature with regard to the care of clients across the lifespan to include both adult and geriatric clients. This course integrates community health concepts and prepares entry level nurses to work effectively in multiple roles, with individuals, families, and communities; addressing the varied clients and different settings in which nurses practice. The role of the nurse as provider of care, communicator, manager, and member of a profession are expanded and provide the framework for clinical applications and evaluation. Theoretical knowledge and principles are applied in the skills laboratory and clinical setting.

Prerequisite: Fundamentals of Nursing

Add:

**NUR 1460C Maternal-Child Nursing
220 hours, 12 credits**

In this course the student continues to develop the role as a member of the profession of nursing as a provider of care to women, children and families in meeting their basic needs in a variety of settings. This course integrates community health concepts and prepares entry-level nurses to work effectively in multiple roles, with individuals, families, and communities; addressing the varied clients and different settings in which nurses practice. Emphasis is placed on knowledge and skills relating to the pediatric population and the childbearing family. The role of the nurse as a provider of care, communicator, teacher, manager, and member of a profession provide the framework for the clinical application and evaluation in pediatric and childbearing settings.

Prerequisite: Adult Nursing I

Add:

**NUR 2711C Adult Nursing II
230 hours, 13 credits**

This is the second of three adult-health nursing courses. The focus of this course is on the care of adults with altered health status in acute care and psychiatric settings. In this course, students continue to develop their role as a member of the profession of nursing as a provider of care to clients with more complex medical-surgical alterations in health. Emphasis is placed on knowledge and skills relating to advanced adult healthcare in medical-surgical and psychiatric settings. The course curriculum includes concepts that are socially diverse, cultural, and ethnic in nature with regard to the care of clients across the lifespan to include both adult and geriatric clients. This course integrates community health concepts and prepares entry level nurses to work effectively in multiple roles, with individuals, families, and communities; addressing the varied clients and different settings in which nurses practice. The role of the nurse as provider of care,

communicator, teacher, manager, and member of a profession are expanded and provide the framework for clinical application and evaluation. Theoretical knowledge and principles are applied in the skills laboratory and clinical setting.

Prerequisites: Fundamentals of Nursing;
Comprehensive Pharmacology; Adult Nursing I

Add:

**NUR 2712C Adult Nursing III
90 hours, 3 credits**

This is the third of three adult-health nursing courses. The focus of this course is on the care of adults with altered health status. This concentrated clinical course in an acute care setting promotes the student's transition from student to graduate with its emphasis on management of care and leadership, functional health patterns, professional behaviors, communication. Clinical decision making, caring interventions, teaching and learning, collaboration, and managing care activities in a broad in-depth application of the nursing process in the clinical management of group of patients. The course curriculum includes concepts that are socially diverse, cultural, and ethnic in nature with regard to the care of clients across the lifespan to include both adult and geriatric clients. This course integrates community health concepts and prepares entry level nurses to work effectively in multiple roles, with individuals, families, and communities; addressing the varied clients and different settings in which nurses practice. The roles of the nurse as provider of care, communicator, teacher, manager, and member of a profession are expanded and provide the framework for clinical application and evaluation. Theoretical knowledge and principles are applied in the skills laboratory and clinical setting.

Prerequisites: Foundations of Nursing;
Comprehensive Pharmacology; Comprehensive
Pharmacology Lab; Adult Nursing I;
Maternal-Child Nursing; Adult Nursing II

Add:

**NUR 2820 Nursing Role and Scope
20 hours, 2 credits**

This course is designed to assist the graduating student in the transition to the role of the registered nurse. Client care management concepts and the legal, ethical, and professional responsibilities of the registered nurse are stressed.

Prerequisites: Maternal-Child
Nursing; Adult Nursing II
Co-requisite: Adult Nursing III

Add:**NUR 3177 Health Assessment
40 hours, 4 credits**

This course provides an opportunity for students to develop proficiency in comprehensive health assessment as viewed through the lens of holistic, patient-centered care. Assignments designed to develop knowledge and skills for obtaining and recording a systematic, comprehensive health history and physical examinations of the adult client are integrated within the course. Opportunities will be presented to provide for the collaboration and integration of physiological, psychological, and sociocultural issues and theories as they apply to the findings obtained in the comprehensive health assessments. Collaborating with interprofessional teams, utilizing evidence-based treatment guidelines, and additional updated information needed to promote safe clinical practice in the nursing setting will be utilized to gather and analyze data relevant to common health problems.

Prerequisite: Quality and Safety in Nursing Practice
Co-requisite: Applied Pathophysiology

Add:**NUR 3205 Applied Pathophysiology
40 hours, 4 credits**

This course is designed to enhance the student's knowledge and understanding of pathophysiological concepts and processes related to human illness and disease. A patient centered systems approach is used to explore the pathophysiology, etiologies, risk factors, clinical presentation, and diagnostics of selected illness and disease. This course will aid in the student's ability to develop sound nursing practice, critical reasoning abilities, and foster skills that provide safe, quality patient care.

Prerequisite: Quality and Safety in Nursing Practice
Co-requisite: Health Assessment

Add:**NUR 3418 Introduction to Alternative and Complementary Therapies
40 hours, 4 credits**

This course provides an introduction to the use of complementary and alternative therapies used in healthcare. The goal is to provide the student with knowledge and experience of mind/body self-healing skills, multi-cultural alternative medicine theories, practice environments and interventions that can be integrated safely into nursing and/or the nurse's personal lifestyle. The philosophical assumptions of complementary and alternative approaches will be examined through the application of critical thinking and the scientific evidence body of knowledge.

Prerequisite: Advanced Pathophysiology
Co-requisite: Transcultural Nursing

Add:**NUR 3508 Quality and Safety in Nursing Practice
40 hours, 4 credits**

This course focuses on the critical review of current quality and safety issues in healthcare and nursing. "Quality & Safety Education for Nurses" (QSEN), "Institute of Medicine" (IOM) reports, regulatory bodies, and the impact of Magnet Status are identified and examined within the course. Students will increase their understanding of best practices, safety standards, and quality initiatives in the healthcare setting. Emphasized within this course is the Quality and Safety Education for Nurse (QSEN) Competencies. This course examines QSEN as a conceptual framework which can lead to improvement of patient safety outcomes through managing human behavior and system design.

Prerequisite or Co-requisite: Dimensions of Professional Nursing

Add:**NUR 3655 Transcultural Nursing
40 hours, 4 credits**

This course recognizes the importance of providing and incorporating cultural beliefs and experiences of patients, families, and their health care professionals within the care setting. Topics include: comparative analysis of communication styles, fostering open communication, family roles, dietary preferences, safety and concerns associated with cultural beliefs, values and practices of cultural norms and the impact on health care practice. Nursing interventions that integrate and examine evidence based practice related to various cultural beliefs will be discussed. The importance of incorporating a holistic approach in the care and treatment of the patient will be demonstrated within this course.

Prerequisites: Quality and Safety in Nursing Practice; Health Assessment
Co-requisites: Introduction to Alternative and Complementary Therapies

Add:**NUR 3816 Dimensions of Professional Nursing
40 hours, 4 credits**

This course investigates the evolution of nursing with an emphasis on professional values, standards and ethics. Students will explore how social and economic factors influence the nursing practice. This course includes an overview of major contemporary issues in nursing with a critical-thinking approach to evidence-based nursing practice. Opportunities will be presented that provide for strengthening critical thinking skills and the development of a personal philosophy statement of nursing practice.

Prerequisites: Current, unencumbered RN license that is valid in the United States. Completion of all college prep course work, including a minimum of 32 credit hours of

transferable general education course work required for admission to the program.

Co-requisite: Quality and Safety in Nursing Practice

Add:

NUR 4165 Nursing Research

40 hours, 4 credits

This course is designed to develop the skills required to read, comprehend, analyze, and utilize research as it applies to healthcare. Students will be required to identify and appraise best evidence research that supports nursing practice. Further emphasis is placed on developing skills to become astute consumers of nursing research; such as examining literature reviews and analyzing data. Issues related to implementation and integration of best evidence in practice will be included in this course.

Prerequisites: Quality and Safety in Nursing Practice

Co-requisites: Nursing Informatics

Add:

NUR 4529 Public Health and Community Nursing

40 hours, 4 credits

This course provides an overview of concepts and theories related to public health/community health nursing. The role of the professional nurse in sustaining and promoting health among diverse populations is explored. Topics include core functions and essentials of public health, health promotion and prevention, population focused practice, community assessment, and interdisciplinary collaboration. Principles of epidemiology and the influence of factors impacting health and well-being of local and global communities are incorporated. This course provides the student the opportunity to demonstrate critical thinking and collaborative communication through community assessment.

Prerequisite: Transcultural Nursing; Nursing Research

Co-requisite: Leadership and Management in Nursing

Add:

NUR 4773 Leadership and Management in Nursing

40 hours, 4 credits

This course explores leadership theories and concepts that impact the professional role of nursing. Emphasis will be placed on nursing leadership roles that create a culture of advocacy, safety and quality through individual and team performance. The student will develop knowledge related to improvement priorities in the work environment that will encourage organizational excellence. Additional topics include leadership styles, decision making, planned change, conflict resolution, communication, finance, healthcare policy, legal issues, and evaluation.

Prerequisites: Successful completion of all other BSN courses

Co-requisite: Public Health and Community Nursing

Add:

NUR 4870 Nursing Informatics

40 hours, 4 credits

This course integrates nursing science, information science, computer science and cognitive science to acquire, process, design, and disseminate knowledge. The student will explore the use of information technology applications used by health care professionals to support the delivery of health care. Students will discuss the impact informatics has on the delivery of care including; efficiency and productivity, patient safety, confidentiality, and healthcare outcomes. With innovations in healthcare technology, unique opportunities and challenges for the nurse will be considered and addressed in this course.

Prerequisites: Quality and Safety in Nursing Practice

Co-requisites: Nursing Research

Add:

NUR 4909 Nursing Capstone

40 hours, 4 credits

This course is designed to provide students with the opportunity to synthesize and comprehensively apply and integrate theoretical and clinical experiences from previous nursing courses into a capstone experience. Students will use critical thinking skills and evidence-based practice to promote patient centered nursing care that encompasses quality and safety. Students will plan and implement a practicum experience consistent with the professional standards of the baccalaureate nurse essentials. The capstone preceptorship supports the role transformation of students and promotes clinical competence at the BSN preparation level.

Prerequisites: Successful completion of all other BSN courses and/or

Co-requisite: Leadership and Management In Nursing

ACADEMIC INFORMATION AND COLLEGE POLICIES

College Acceptance or Rejection of Application for Admission (pg. 69)

Delete the fifth bullet point in its entirety and replace with the following:

- Rasmussen College Experience Course Successful Completion. All prospective students, except as noted below, of Rasmussen College must successfully complete the College Experience Course with a cumulative score of 80% or higher in order to continue the enrollment process. Students who do not successfully pass the College Experience Course with a score of 80% or higher on the first attempt will be allowed one additional opportunity to re-take the course three months after the start of the first attempt. The following students are exempt from the College Experience Course requirement: graduates of Rasmussen College within the last two years; Early Honors program and Individual Progress students and re-entry students who have already successfully completed the College Experience Course. Early Honors program and Individual Progress students will be required to successfully complete the Online College Readiness Course.

Applying for Admission to the School of Health Sciences Health Sciences Associate's Degree or Health Science Certificates (pg. 71)

Insert the following immediately after the 'Applying for Admission to the Medical Laboratory Technician and Surgical Technologist Programs' section:

Applying for Admission to the School of Health Sciences Health Sciences Associate's Degree or Health Science Certificates

In addition to the College entrance requirements, applicants pursuing admittance into the Health Sciences Associate's Degree or Phlebotomy Certificate or EKG Certificate or Patient Care Tech Certificate programs must complete the following prior to being deemed eligible for admission:

The student will be required to have current Basic Life Saving & Cardio Pulmonary Resuscitation Certification with Defibrillator (BLS - CPR with Defibrillator). The certificate must have been issued by either the American Heart Association Healthcare Professionals or American Red Cross Professional Rescuers.

Minnesota campus applicants to this program must successfully complete and pass a Minnesota Department of Human Services background check.

Prior to the student beginning their externship, the full three injection series of the Hepatitis B immunization and all other program required immunizations must be completed.

Applying for Admission into the School of Nursing (pg. 71)

Delete this section in its entirety and replace with the following:

Applying For Admission into the School of Nursing

Applicants pursuing admittance into a Practical Nursing, Mobility Nursing or Professional Nursing Program must complete the following steps in order to be deemed eligible for admission:

1. Applicants must achieve a score on the College entrance placement examination acceptable for admission into the College at a level that does not require remedial coursework. Alternatively the applicant must provide a college transcript indicating a grade of C or higher in college-level English and/or Mathematics. Former or current students who have either achieved Entrance Placement score above that requiring a Foundation course or have provided a college transcript indicating a grade of C or higher in college-level English and Mathematics are not required to repeat the Entrance Placement test.

Once applicants have met the Entrance Placement requirements above, the School of Nursing Entrance Exam may be scheduled.

2. School of Nursing Entrance Exam: Applicants who have successfully completed College entrance placement requirements will be given access by admissions to the online registration process for the School of Nursing Entrance Exam. Here the applicant may register and pay associated fees for the study materials and exam. Based on exam scores, applicants may apply for a nursing program of study for which they qualify. Applicants not meeting the exam score requirement determined by Rasmussen College at its sole discretion upon first attempt may register for one additional attempt. Applicants not successful after the second attempt must wait 12 months before reapplying to the School of Nursing. Applicants who have previously taken the entrance exam within the past twelve months for admission to another institution may, at their own expense, have the results transferred to Rasmussen College. Transferred scores will be verified by the Dean of Nursing and will count as one of the two attempts allowed in a 12 month period. Any

nursing entrance exam results dated more than 12 months prior to application to Rasmussen College will not be considered.

- TEAS Score for admissions eligibility for Associate Degree Nursing (ADN) program and Mobility Bridge Entrance Option: 65% or higher composite score
- TEAS Score for admissions eligibility for Practical Nursing Diploma program: 55%-64.9% composite score

3. Complete Application Requirements: Applicants successful in completing the College entrance placement exam requirements and the School of Nursing Entrance Exam must complete the following prior to being deemed eligible for consideration for admission:
- Rasmussen College Application
 - Health Physical and proof of vaccinations
 - The student will be required to have current Basic Life Saving & Cardio Pulmonary Resuscitation Certification with Defibrillator (BLS - CPR with Defibrillator). The certificate must have been issued by either the American Heart Association Healthcare Professionals or American Red Cross Professional Rescuers.
 - Criminal Background Screening
 - Any additional program specific requirements as specified at the time of enrollment.

Applicants with prior college credits will receive a transcript evaluation during the admissions process. Applicants will receive a letter from the College in the mail confirming acceptance once all admissions requirements have been met, including attendance at programmatic orientation. Accepted applicants must attend the Rasmussen College General Orientation and the School of Nursing Orientation. Failure to attend both orientation sessions will result in dismissal from the program. Former nursing students in good standing with the School of Nursing who have not been enrolled for more than 12 months must successfully repeat the School of Nursing Entrance Exam or ATI Exam to be deemed eligible for reenrollment into the nursing program through a consultation with the Dean of Nursing.

Entrance Requirements for Software Application Development and Computer Science Programs (pg. 71)

Delete the section titled "Entrance Requirements for Software Application Development Associate's and Computer Science Bachelor's Programs" in its entirety and replace with the following:

Entrance Requirements for Software Application Development Certificate and Associate's, Computer Science Bachelor's, and Game and Simulation Programming Bachelor's Programs

Minimum scores of 22 on the Math portion and 25 on the Writing portion of the STEP test are required for entry into these programs. Alternatively, the applicant must provide a college transcript indicating a grade of C or higher in college-level English and/or college-level algebra courses completed at regionally or nationally accredited institutions of higher learning as recognized by the Department of Education and the Council on Higher Education Accreditation (CHEA). Please speak with a Program Manager for details.

Scholarship and Grant Programs (pg. 73)

Delete the sections, '10% Military Discount' and 'Restrictions' in their entirety and replace with the following:

Military Discount

All current and retired military personnel, as well as veterans, enrolling in a Degree, Diploma, or Certificate program may be eligible for a tuition discount.

In addition, the College will extend the discount to the spouse and dependents, age 18-21, of any service member on active duty as outlined above.

Restrictions

Students are eligible for only one of the following scholarship and grant programs at a time:

- Early Honors Program
- Military Discount
- Corporate Discount
- Community Business Success Grant
- AcceleratED Partner Success Grant
- Achieve Scholarship

Scholarship and Grant Programs (pg. 73)

Add the following above 'Early Honors Program':

Achieve Scholarship

New prospective students enrolling at Rasmussen College for the October 7, 2013 academic start and taking 12 or more credits per quarter may be eligible for the Achieve Scholarship. The Achieve Scholarship awards recipients up to \$8,000 (U.S.) in quarterly increments (of \$500 per quarter) while attending Rasmussen College. Students in the Nursing Programs (Practical Nursing and Professional

Nursing) and AcceleratED programs are not eligible for the scholarship. For a complete list of terms and conditions, visit www.rasmussen.edu/achieve or talk to a program manager.

Seminar Course Grading (pg. 74)

Insert the following immediately after the “Foundation Course Grading” section:

Seminar Course Grading

1. The E185, E270, E320, and E410 seminar courses are satisfactory/unsatisfactory (SX/UX) courses.
2. Students are to complete and submit the components of their Graduate Achievement Portfolio (GAP), a general education skills assessment, as assigned in the appropriate seminar courses designated for each program.
3. If a student does not successfully submit an assigned GAP general education assessment piece in the appropriate seminar course, then he or she will be unable to earn enough points to pass that seminar course.

E185, E270, E320, and E410 Seminars
 SX 73% or more UX Below 73%

Health Sciences Program Grade Scale (pg. 74)

Delete the section in its entirety and replace with the following:

Health Sciences Programs Grade Scale

The following grade scale applies to all BMS, CVT, EK, HI, HIM, HSA, HSC, M, MA, MEA, ML, MLT, MTS, OST, PB, PC, PT, PTN, and ST coursework in School of Health Sciences programs.

Letter Grade	Percentage Range
A	100 to 93 %
A-	92 to 90%
B+	89 to 87%
B	86 to 83%
B-	82 to 80%
C+	79 to 77%
C	76 to 73%
F	Below 73%

Repeating Courses Policy (pg. 74)

Delete this section in its entirety and replace with the following:

Repeating Courses Policy

Students who are meeting Satisfactory Academic Progress may re-take courses up to three times, but only at regular tuition rates. Students repeating a course for a second time may count the credits for that course in a financial aid award calculation only if the original grade earned is an “F/FA.” If a student elects to repeat

a course for which a grade above “F/FA” was earned, the credits are included in the financial aid award calculation only if the program requires a higher grade to be considered “passing” than what the student has previously earned. In this case if the student fails the previously passed course all future eligibility to receive financial aid for that course is discontinued.. The credits for all repeated courses, along with the credits from prior attempts, will be included in credits attempted for the purposes of determining Satisfactory Academic Progress. The highest grade earned from a repeated course will be used in the calculation of the student’s cumulative GPA. The student’s GPA will be recalculated to reflect the highest letter grade. If more than one attempt results in the same letter grade, only the most recent one will be used in the calculation of GPA.

Students who fail a required course three times and have a cumulative grade point average of 2.0 or greater may be able to switch to another program that does not include the course as a required part of the program curriculum without going through the program appeal process. Students who fail a course three times, and who cannot switch to another program as determined by the program change appeal process, will be terminated from the College. Those students cannot return to the College until they successfully complete an equivalent to the course elsewhere by earning a grade of C or higher and transferring it back in to Rasmussen College, in accordance with the transfer of credit requirements. In the case of credit transfer, an “F/FA” grade will remain for purposes of GPA calculation. However, all of the course credits both failed and transferred, count in the student’s Cumulative Completion Rate (CCR).

Foundation courses may only be repeated one time. Students who fail a Foundation course a second time will be terminated from the College. All attempts of repeated courses, including the grades, remain on academic records and transcripts even though they may not be included in the GPA calculation. Students should be aware that graduate schools and other institutions to which they might wish to transfer may not accept repeats and may include all grades in calculating GPA for admission.

Nursing Repeating Courses Policy

The School of Nursing allows students to fail one Nursing course within the core Nursing curriculum (NU, NUR, PN, PRN, HUN coursework). However, a second failure, whether it be the same Nursing course or any

other Nursing course, will result in removal from the Nursing program.

Late Assignment Submission Policy (pg. 74)

Delete this policy in its entirety and replace it with the following:

Late Assignment Submission Policy

Students may submit assigned work up to seven (7) days after the stated deadline. A 10% grade penalty is assessed for work up to twenty-four hours late; an additional 10% penalty is assessed for each additional day the work is late. In some cases (such as late discussion postings) students may be asked to complete an alternate assignment for equivalent point value, minus any applicable penalty. Online discussions conclude at the end of the current week/module. Discussion posts made after the end of the current week/module will not be accepted. Instructors may waive the late penalty or timeframe in the case of extenuating circumstances as determined by the faculty. In some cases, certain activities, such as labs and exams, must be completed at the designated time and therefore cannot be made up. The instructor should apprise students beforehand of any such activities. In no circumstances may students submit work after the last day of the academic term unless an incomplete grade has been requested and granted beforehand.

Incomplete Grade Policy (pg. 74)

Delete this policy in its entirety and replace it with the following:

Incomplete Grade Policy

An 'I/IN' indicates an incomplete grade, and is a temporary grade for a course which a student is unable to complete due to extenuating circumstances. The student must request an incomplete from the instructor prior to the last day of the term. An incomplete may be granted to a student at the end of a quarter at the discretion of the instructor under the following conditions:

1. An incomplete form is completed by the instructor which identifies:
 - a. The work to be completed;
 - b. Qualifications for acceptable work;
 - c. The deadline for completing the work (within two weeks of the end of the term);

d. The grade to be entered should the student not complete the work by the deadline (the calculated grade).

e. Instructors will have one week for grading, recalculation of grades and processing of all documents required.

2. Incomplete records will be maintained in the student's file.

3. The student's Dean must be informed of all incompletes granted by instructor. Incompletes will be granted rarely and instructors will take the following into consideration when granting an incomplete:

a. The work to be completed must be regularly assigned work, identified in the course syllabus.

b. The student can reasonably be expected to complete the work by the deadline.

c. The student's grade will be substantially improved.

d. The student has demonstrated a commitment to completing work in a timely fashion.

e. Granting the incomplete is truly in the best interest of the student.

f. By completing the work, one of the following will apply:

i. The student will learn substantive information by completing the work.

ii. The student will learn higher level thinking skills or gain substantially greater command of the subject matter.

4. Allowing the student extra time compensates for events or conditions not within the student's control (i.e., illness, emergencies, etc.).

5. Incompletes may not be granted only for the sake of improved cumulative grade point average, nor will they be granted to allow students to make up “extra credit” work.

6. Credits for all incomplete courses will be counted as credits attempted but not earned in the quarter of enrollment. Incomplete grades must be completed within two weeks of the last day of the term. An incomplete grade not completed by the deadline will be changed to the calculated alternate grade designated by the instructor on the incomplete form and will be included in the cumulative grade point average. The final grade awarded for the course is included in the calculation of the cumulative grade point average.

School of Nursing Incomplete Grade Policy and Policy for Change of Grade (pg. 75)

Add the following new section immediately following the section titled “Policy for Change of Grade”:

School of Nursing Incomplete Grade Policy and Policy for Change of Grade

The Incomplete Grade Policy and Policy for Change of Grade, above, apply to students in the School of Nursing, with the following exceptions:

Students taking the Nursing Role and Scope or Leadership in Nursing course who do not earn a score of 90% or higher on the ATI Comprehensive Predictor Exam on either their first, second, or third attempt, will receive an incomplete grade for the course and be scheduled for remediation through the campus and ATI services during the subsequent quarter. Upon completion of remediation, the student will retake the ATI Comprehensive Predictor Exam. Students who achieve a score of 90% or higher will receive a grade change. Students who score below 90% on the ATI Comprehensive Predictor Exam will fail the course and be scheduled to repeat Nursing Role and Scope or Leadership in Nursing (as applicable) in the following academic quarter.

This policy applies to the following courses:
 NUR 2820 Nursing Role & Scope (FL)
 NU232 Nursing Role & Scope (IL)
 NU290 Leadership in Nursing (WI)
 NU295 Leadership in Nursing (MN)

Academic Overload Policy (pg. 75)

Delete this section in its entirety and replace with the following:

Academic Overload Policy

An academic or credit overload occurs when a student registers for more than 20 credits per quarter. Students wishing to schedule an overload must obtain the signature of the Student Advisor as well as the approval and signature of the Academic Dean of the campus in which they are enrolled. In order to apply for an overload, the student must have completed a minimum of 32 credits at Rasmussen College. The student must also be meeting the Rasmussen College Standards of Satisfactory Academic Progress (SAP) and have a cumulative grade point average at least 2.75 to apply for an overload. Students with a cumulative grade point average of 2.75 or above will be eligible to take up to 24 total credits in the approved quarter. The student must apply for approval no later than two weeks prior to the start date of the session in which the overload is desired. The Academic Overload Approval Form is available through a Student Advisor.

Online Courses (pg. 75)

Delete this section in its entirety and replace with the following:

Online Courses

Students may be required to take online courses in order to complete a degree. All new students will complete an orientation program prior to beginning classes. Online course activities and assignments at Rasmussen College are conducted via chat, email, message boards, and interactive websites.

Tuition and fees for online courses are assessed at the same rate as for residential courses unless otherwise indicated. Online instructors receive training and support while operating in the online environment. A list of computer hardware and software requirements for online courses is provided to students upon enrollment. Textbooks and other resources required for online courses are available at the Rasmussen College bookstore.

Rasmussen College Standards of Satisfactory Academic Progress (SAP) (pg. 76)

Delete the second paragraph in its entirety and replace with the following:

Cumulative grade point averages and successful completion of credits attempted are monitored

quarterly, and students not meeting the standards are notified. Students who do not meet the standard will be expected to participate in Project Rally, which includes online learning tools and consultations with a member of the College team. The student is expected to complete the online learning tool in Project Rally by the first Friday of the quarter. Failure to complete this tool may result in an administrative withdrawal from the College.

General Transfer Credit Policy (pg. 77)

Delete the 8th bullet point and replace with the following:

- Students in the Medical Assisting, Medical Laboratory Technician, and Surgical Technologist programs must complete at least 50% of their program requirements at Rasmussen College, and no more than 50% may be completed via transfer credits, course waivers, credit by examination, or other means, with the exception of “block transfer” candidates for the Surgical Technologist and Medical Assisting Associate’s degree programs.

Students in the Professional Nursing Associate’s degree program must complete at least 45% of their program requirements at Rasmussen College, and no more than 55% may be completed via transfer credits, course waivers, credit by examination, or other means.

Course by Course Transfer (7th bullet point) (pg. 77)

Delete the 7th bullet in its entirety and replace with the following:

- Associate Nursing Program will not accept any core course transfers (prefixes NUR/PRN in Florida; prefixes PN/NU/NUR in Illinois, Minnesota and Wisconsin).

Medical Assisting Associate Degree Completer Block Transfer Policy (pg. 78)

Delete this section in its entirety and replace it with the following:

Medical Assisting Associate’s Degree Completer Block Transfer Policy

A block transfer of 51 core credits may be allowed into the Medical Assistant AAS program if one of the following criteria is met:

1. Graduated from a CAAHEP or ABHES accredited MA diploma or certificate program within the past 3 years and holds a current CMA (AAMA)/ RMA (AMT) certification; or

2. Graduated over 3 years ago from a CAAHEP or ABHES accredited MA diploma or certificate program, but has worked as an MA within for the past 3 years and holds a current CMA (AAMA)/RMA (AMT) certification.

Students may seek a course-by-course transfer credits or course waiver for MA250/MEA 2290 (Radiography Skills) only if they have a limited scope x-ray operators certificate. Students will need to complete 32 general education credits and E242 (Career Development), unless transferred in.

When applying this policy, the transfer maximum is 67%.

Rasmussen College Medical Assisting Diploma graduates will receive actual credits earned in their program up to a maximum. The maximum equals the credit value of the current diploma program.

Block Transfer for Health Sciences Associate’s Degree (pg. 78)

Insert the following new policy immediately following the Medical Assisting Associate Degree Completer Block Transfer Policy:

Block Transfer for Health Sciences Associate’s Degree

For students who have completed a healthcare certificate or diploma and enroll into the Health Sciences AS program a total block transfer of 19 major core credits may be posted.

For students who have completed a Diploma or Associates degree in Medical Assisting and enroll in the Health Sciences AS program Phlebotomy Track a total block transfer of 25 major core credits may be posted.

For students that have completed a Diploma or Associates degree in Medical Assisting and enroll into the Health Sciences AS program EKG Technician Track a total block transfer of 26 major core credits may be posted.

Previously completed coursework will be considered for transfer on a course-by-course basis. Students must complete 33% of their program at Rasmussen College, and no more than 67% may be completed via transfer credits, course waivers, credit by examination or other means. A five year transfer limit for School of Health Sciences core courses, including the block transfer applies to this program.

RN to Bachelor of Science Nursing (RN to BSN) Transfer Policy (pg. 78) Delete the last bullet point in its entirety and replace with the following:

- The total percentage of credits that may be transferred into the program is 75%.

Mobility Practical Nursing Block (pg. 78)

MOBILITY BRIDGE ENTRANCE OPTION

Students who have successfully completed a practical nursing program and hold a current unencumbered practical nursing license will receive credit for NU117/NUR1172 Nutritional Principles in Nursing (4 credits) and NU203/NUR2034C Fundamentals of Professional Nursing (6 credits) in the Professional Nursing AS Degree program. Students may also transfer in up to 47 credits in successfully completed applicable general education coursework. Graduates of Rasmussen College's Practical Nursing program will receive credit for G124/ENC1101 English Composition, G233/MAT1031 College Algebra, and the Communication course the student completed in the Practical Nursing program (for a total of 12 additional general education credits). Rasmussen graduates should contact the campus in which they intend to enroll to determine whether they have completed additional coursework that is eligible for transfer. Students must successfully complete all remaining coursework in the Professional Nursing AS Degree program to earn this degree.

College Equivalency Credit (pg. 78)

Delete the second bullet point in its entirety and replace with the following:

- College-Level Examination Program (CLEP) examinations administered by The College Board. A score of 50 or higher is required for computer-based testing since 2/15/2003. For paper-based exams taken prior to 2/15/2003, the CLEP ACE recommended score will be used.

Foundations of Child Development; Early Childhood Curriculum and Instruction; and Health, Safety, and Nutrition/CDA Application Waivers (pg. 78)

Delete the statement in its entirety and replace with the following:

Foundations of Child Development; Early Childhood Curriculum and Instruction; and Health, Safety, and Nutrition/CDA Application Waivers

- Students who have a current and valid CDA Credential, awarded by the Council for Professional Recognition, and are enrolled in the Early Childhood Education Associate's degree, Early Childhood Education Diploma, or Early Childhood Education Certificate, may request a waiver from Foundations of Child Development;

Early Childhood Education Curriculum and Instruction; and Health, Safety, and Nutrition/CDA Application.

- The student's credential will be reviewed, and if the criteria are met, Rasmussen College will waive the course requirements and the grades will be posted on the student transcript as a Course Waiver (CW).

School of Design Waivers (pg. 78)

Insert the following new section immediately following the "School of Technology Waivers" section:

School of Design Waivers

- Course waivers will be considered for students who have select professional certifications from Adobe (Certified Associate or Certified Expert) and Autodesk.
- Course waivers will be considered for specific courses within the School of Design related to the certification.
- Certifications must have been earned within the last three years.
- The student's credential will be reviewed, and if the criteria are met, the course requirements will be waived and the grades will be posted on the student's transcript as a Course Waiver (CW).

Minimum Technical Requirements (pg. 79)

Delete this section in its entirety and replace with the following:

Minimum Technical Requirements

In order to be successful in online courses, you must use a computer system that meets or exceeds the minimum technical requirements specified in the course. If you do not meet those requirements, you may need to attend a campus to complete some assignments. Technical requirements necessary for online courses to run properly are located on the following website: http://content.learntoday.info/course_files/techinfo/techinfo_ols.html

Some courses require the use of software that is not Mac compatible. If you use a Mac, you may need to attend a campus, use a PC, or run the software in Windows emulation mode in order to complete some required course activities and assignments.

Drug Abuse Policy and Drug-Free School and Workplace policies (pg. 81) – delete and replace with the following:

Drug-Free School and Workplace

In accordance with the Drug-Free Schools and Communities Act (34 CFR Part 85), Rasmussen College campuses are hereby declared a drug-free college and workplace. For more information visit The U. S. Department of Education’s Higher Education Center for Alcohol and Other Drug Prevention website at www.edc.org/.

Students are prohibited from the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance or alcohol anywhere on property belonging to the College including but not limited to grounds, parking areas, or anywhere within the building(s); or while participating in College-related activities including but not limited to clinical, externship, or practicum experiences. Students who violate this policy will be subject to disciplinary action up to and including expulsion or termination of enrollment.

As a condition of enrollment, students must abide by the terms of this policy or the College will take one or more of the following actions within 30 days with respect to any student who violates this policy by:

1. Reporting the violation to law enforcement officials.
2. Taking appropriate disciplinary action against such student, up to and including expulsion or termination of enrollment.
3. Requiring such student to participate in a substance abuse rehabilitation program approved for such purposes by a federal, state, local health, law enforcement, or other appropriate agency.

In compliance with the law, the College will make a good faith effort to maintain a drug-free College through implementation of the preceding policy and will establish and maintain a drug-free and alcohol awareness program. Upon enrollment and on an annual basis, students will receive a copy of the Rasmussen College Drug-Free Schools and Workplace policy, list of applicable sanctions under federal, state, or local laws, description of health risks, list of drug and alcohol programs that are available, and list of imposed disciplinary sanctions for students.

The Federal Government has taken a number of legal steps to curb drug abuse and distribution. These anti-drug laws affect several areas of our lives. For instance, the Department of Housing and Urban Development, which provides public housing funds, has the authority to evict residents found to be involved in drug related crimes on or

near the public housing premises. Businesses with federal contracts are subject to a loss of those contracts if they do not promote a drug-free environment. In our particular situation, students involved with drugs could lose their eligibility for financial aid. Further, they could also be denied other federal benefits, disability, retirement, health, welfare, and Social Security. Finally, a record of a felony or conviction in a drug-related crime may prevent a person from entering certain career fields.

Drugs and alcohol are highly addictive and injurious to the person and can cause harmful effects to virtually every aspect of a person’s life, *i.e.*, relationships, family, job, school, physical, and emotional health. People who use drugs and alcohol may lose their sense of responsibility, become restless, irritable, paranoid, depressed, inattentive, anxious, or experience sexual indifference, loss of physical coordination and appetite, go into a coma, experience convulsions, or even death.

Persons who use drugs and alcohol face not only health risks, but their ability to function in their personal and professional lives can be impaired as well. Some examples of this are a hangover, or a feeling of being “burnt out”, being preoccupied with plans for the next drink, or “high” or slowed reflexes that can be especially dangerous while driving.

There are danger signals that could indicate when someone is in trouble with drugs or alcohol:

- inability to get along with family or friends
- uncharacteristic temper flare-ups
- increased “secret” type behavior
- abrupt changes in mood or attitude
- resistance to discipline at home or school
- getting into a “slump” at work or school
- increased borrowing of money
- a complete set of new friends

We recommend that any person observing any of the above changes in any student of Rasmussen College immediately notify the Academic Dean or Campus Director.

Drug Abuse Policy

Rasmussen College is committed to providing a safe, drug-free environment for its students and employees, based on our concern for the safety, health and welfare of our students and their families, as well as our employees and the community. The organization also wishes to protect its business from unnecessary financial loss due to drug or other intoxicant use among its students and employees.

Consistent with this commitment, Rasmussen College strictly prohibits:

1. The presence of students or employees on campus or off campus at activities sponsored by the College, while under the influence of intoxicants, drugs or any other controlled substances.
2. The use, manufacturing, furnishing, possession, transfer, or trafficking of intoxicants, illegal drugs, or controlled substances in any amount, in any manner, or at any time on Rasmussen College campuses or off campus at activities sponsored and controlled by the College.

Rasmussen College has the right to:

1. Discipline students, including dismissal, for felony convictions regarding illegal use, possession or trafficking of drugs.
2. Take disciplinary action against students who violate this policy. Students may also be suspended pending outcome of an investigation regarding compliance with this policy.

The State of Minnesota Cancellation, Termination, Refund Policy (pg. 84)

Change caption to “The State of Minnesota and State of Wisconsin Cancellation, Termination, Refund Policy.”

Accreditation (pg. 86)

Delete the Medical Assisting program accreditation statements in their entirety and replace with the following:

The Medical Assisting Diploma program at the Green Bay, Lake Elmo/Woodbury, and Moorhead campuses is accredited by the Commission on Accreditation of Allied Health Education Programs (caahep.org) upon the recommendation of the Medical Assisting Education Review Board (MAERB).

- Commission on Accreditation of Allied Health Education Programs
1361 Park Street
Clearwater, FL 33756
727-210-2350

The Medical Assisting Diploma and AAS Degree programs at the Aurora/Naperville, Mokena/Tinley Park, Rockford, and Romeoville/Joliet campuses in Illinois; the Fort Myers, Ocala and New Port Richey/West Pasco campuses in Florida; the Appleton and Wausau campuses in Wisconsin; and the Blaine, Bloomington, Brooklyn Park/Maple Grove, Eagan, Mankato, and St. Cloud campuses in Minnesota are accredited by the Accrediting Bureau of Health Education Schools (ABHES).

- Accrediting Bureau of Health Education Schools
7777 Leesburg Pike, Suite 314
North Falls Church, VA 22043
703-917-9503

Minnesota Tuition Table (pg. 84) Delete the tuition table in its entirety and replace with the following:

Full-time pricing will be effective for new students as of February 2013	Part-time	Full-time
<p>All Programs:</p> <ul style="list-style-type: none"> • School of Business • School of Design • School of Health Sciences • School of Justice Studies • School of Technology 	<p>\$395 per credit for Foundations courses and all 100-200 level courses</p> <p>\$310 per credit for all 300-400 level courses</p>	<p>\$299 per credit for Foundation courses and all 100-200 level courses</p> <p>\$299 per credit for all 300-400 level courses</p>

- Full time students are defined as taking 12 or more credits per quarter. Students taking less than 12 credits are part time students. Students taking 8 or more credits during the Mid Quarter term are considered full time.
- Currently enrolled students will maintain their current tuition rate and will be eligible for the full time rates October 2013.
- There is a required course materials fee of \$150 per course. Course numbers ending with “L” or “LL” will not be charged a course materials fee.
- FAST TRACK: Students taking sixteen (16) or more credits shall only be charged for sixteen (16) credits and will be assessed an additional course materials fee of \$150 for every course over four courses.
- Tuition rate is locked in for continuously enrolled students. A change in the number of credits taken during enrollment in any quarter may lead to different prices if a student moves from part-time to full-time or vice versa.
- Individual Progress students will be charged at the School of Business rate, plus the cost of books and other fees.
- Students not enrolled in an eligible program who elect to take courses without earning college credit are charged \$275 per credit hour, plus the cost of books and other fees. This non-credit option is NOT available for courses beginning with a “CC” “N” “NM” “NU” “NUR” “PN” “PT” “ST” “ML” and “W”. Students who elect to complete courses on a non-credit basis are not guaranteed full technology access; however, every effort will be made to provide technology resources. Transcripts denote a “ZP” upon completion of the course. Students may choose to convert the “ZP” to a letter grade and earn credit for an additional cost of \$75 per credit hour.
